MATERIALS

- main fabric: the dress works best with light and medium weight woven fabrics (quilting cotton, double gauze, lawn, voile, linen, wool, ...). Heavy weight fabrics are also possible, if they are comfortable to wear.

- lining: light weight fabrics work best here.

- fabric for the collars: the thinner the fabric, the better the collar will stay down nicely, and the easier it will be to achieve smooth round collar edges.

- fusible interfacing: the quantity needed depends on which options you use. For the collars, it is essential to use the *thinnest* interfacing available.

- 1 hidden zipper to close the back. *Minimum* length:

In centimeters: 1Y-2Y: 30 cm // 3Y-6Y: 35 cm // 7Y-9Y: 40 cm // 10Y-12Y: 45 cm

In inches: 1Y-2Y: 12" // 3Y-6Y: 14" // 7Y-9Y: 16" // 10Y-12Y: 18"

- scissors, thread, pins, etc.
